

OilClean MOF 1000

A Fast and Efficient Oil Flush Machine

- ▶ Dynamic Flushing Process Cleans Entire Lubrication System
- ▶ Works with Spin-on and Canister Style Oil Filter Assemblies
- ▶ Timed Cleaning Cycle
- ▶ Air-Blast Control to Clean Any Build Up From the Oil Pick Up Screen
- ▶ Service Benefits:
 - Improves Gas Mileage
 - Maximizes Engine Performance
 - Minimizes Exhaust Emissions
- ▶ Provides a Value-Added, Low-Cost and Profitable Engine Oil Service

Part# 200-1026

The OilClean Service Kit includes specifically formulated solutions for the OilClean 1000 that can also be safely used in other oil exchange machines.

Part No. 500-6050

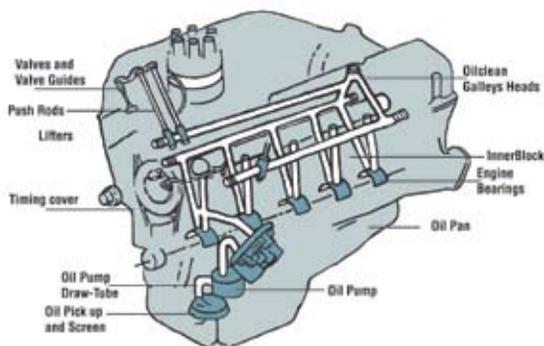

▶▶ MOTORVAC OILCLEAN MOF 1000

Why use the MotorVac OilClean System

From the very first time an engine is started, deterioration and contamination of engine oil begins. As an engine and its oil heats up and cools down, viscosity and thermal breakdown occurs. By using the proprietary OilClean Cleaning Detergents with the OilClean Engine Flush machine, the sludge and contaminants that build up in an engine over time are removed. The entire lubrication system is cleaned including: oil galleys, valve train, oil pan, timing cover, oil pump and oil screen. Anywhere oil goes, OilClean will follow it and clean it.

How MotorVac OilClean Works

The OilClean system connects to the engine through its oil filter assembly. A powerful-yet-safe mixture of OilClean detergent passes throughout the lubrication system of the engine. Finally, a safely regulated air supply back flushes the return line and system and cleans out any remaining sludge or contaminants. Add new oil and a new filter to complete a professional, thorough and value-added service.

Safety

Safety is always a major concern and to that end the OilClean incorporates built-in safety features. An alarm warning the technician of low pressure is integrated into the OilClean to prevent damage to the engine. Two on-board filters ensure clean oil supply to the engine.

Features & Benefits

- ▶ Portable 12-volt DC operation - rugged, yet lightweight
- ▶ Low pressure warning light, low pressure audible alarm
- ▶ End of service alarm
- ▶ Industrial grade hoses
- ▶ Patented spin-on adapters

Technical Specifications:

- ▶ Power Cord - 18' (5.5m.)
- ▶ Timer - Electronic, 0-60 Minute Adjustable
- ▶ Power Supply - 12 Volt DC Operation
- ▶ Circuit Protection - 15 Amp Circuit Breaker
- ▶ Hoses - 15' (4.6 m.) Output and Return with Quick Coupling
- ▶ Tank- 70 oz. Solution
- ▶ Pump- 60 Gallons per Hour (227 lph), Low Pressure
- ▶ Filter - Canister (5 micron)
- ▶ Ship Weight - 60 lbs. (38.5 Kg.)
- ▶ Ship Width - 24" (60.96 cm.)
- ▶ Ship Depth - 19" (48.26 cm.)
- ▶ Cabinet - Rotomolded
- ▶ One Year Limited Warranty

OilClean Solutions & Filters

MotorVac OilClean Detergent is specially formulated to be the safest, most effective engine oil system cleaning detergent available. The detergent encapsulates all of the sludge and contaminants and leaves the engine as if just assembled. The special 5 micron rated filter is designed specifically for automotive use, it's not taken from another industry as a "can do the job filter". MotorVac's filters trap and suspend any sludge or contaminants that pass through the system.

Adapter Sets/Accessories

STANDARD KIT (SINGLE USE)
12 OZ. BOTTLE
12 FILTERS
Part No. 200-1026

SPIN-ON ADAPTER KIT
(INCLUDED)
Part No. 200-3112
