

FLO- DYNAMICS[®]

TS410

New sensing technology provides the best in accuracy, reliability & performance.

Automatic Transmission Fluid X-Changer

- Fully automatic operation allows easy revenue and profit without additional time investment.
- New 2.5 gallon per minute pump ensures rapid exchanges.
- Superior filtration for longer machine life and less downtime.
- Portable, fully interactive. Works with vehicle's 12-volt battery for easy fluid exchanges.
- Advanced features mean faster fluid exchanges, for greater productivity.

Many **Advanced** Features Make the TS410 Fluid X-changer a **Profitable** Investment.

STATE-OF-THE-ART DESIGN

- Accurate sensor technology allows optimum fluid level to be maintained in vehicle's transmission.
- Two in-line 10-micron absolute fluid filters capture microscopic particles and contaminants.
- Easy to use adapters allow quick hookup to virtually any automobile make and model, saving time and money.
- Clear service hoses give visual confirmation of new and used fluid movements.
- Ergonomically correct working height means greater productivity, less stress and strain.
- Durable roto-cast polyethylene body and tanks prevent vehicle damage. The unit is also lightweight and durable, for easier handling and longer life.
- Large 5-inch locking caster wheels make machine easy to maneuver.

PERFORMANCE-DRIVEN BENEFITS

- Fully automatic. Performs an entire exchange with the push of a button.
- Requires no pit, lift, ramp or auxiliary power supply, and utilizes vehicle's 12-volt battery, so it can be used anywhere.
- 2.5 gallon per minute pump ensures rapid exchanges.

AUTOMATIC TRANSMISSION FLUID EXCHANGE BENEFITS

- Completes fluid exchange in minutes.
- Remove fluid feature allows easier & cleaner removal of pan for filter change when necessary.
- Waste fluid is drained at the touch of a button. So there's no need to turn the machine upside down. Less effort and downtime mean greater efficiency.
- Four capacity selections (4, 12, 16 and 20 qt.) allow for specified amounts of automatic transmission fluid to be pumped through the transmission, for more cost-effective servicing.

The TS410 fluid X-changer replaces virtually 100% of the transmission fluid.

FEATURES

- Roto-cast polyethylene body and tanks
- Fully interactive control panel
- Ergonomically correct working height
- 5-inch locking caster wheels
- Clear service hoses
- Adapter hoses for easy hookup
- Easy-access service panel

Specifications:

- Dimensions: 39"H x 24 3/4"W x 25"D
- Shipping Weight: 95 lbs.
- Fluid Tanks: 24qt. New & Waste
- Power: 12V DC from vehicle's battery

Fully interactive control panel provides easier operation with closer monitoring for greater efficiency, control and cost savings.
